INTRODUCTION

I work as a consultant on the APM market, helping computer systems to work faster, better and reliable as possible. In order to achieve this, the end user experience should always be the key.

To achieve this I have experience in the areas of infrastructure, networking, programming and automation.

In addition, I am member of the UTFPR open-source group and the abnTEX2 latex template project.

RECENT PROFESSIONAL EXPERIENCES

Dynatrace   January 2015
APM Consultant
- Dynatrace APM Training – 5 months

mstech   April 2014 – December 2014
